**KANSAS EMERGENCY MANAGEMENT**

# DEBRIS MANAGEMENT COURSE

**G202**

**March 27-28, 2007  
Manhattan, Kansas**

# DEBRIS MANAGEMENT COURSE

## COURSE OVERVIEW

The *Debris Management Course* is an intense two-day course that provides an in-depth look at the problems and solutions associated with debris. Students will learn how to put together a debris management plan concentrating on such key issues as: staffing, contracting, selecting temporary storage sites, and volume reduction methods. The Kansas Planning Standards dealing with Debris Removal and Disposal will be reviewed.

Participants will have the opportunity to practice debris-estimating techniques by actually going out and looking at properties in the vicinity of the classroom. Various methods will be used and evaluated.

Students will leave the course with a better understanding of the complexities involved in handling debris and can return to their communities and begin working with their local debris management team.

## COURSE OUTLINE

### **MODULE I—Planning and Staffing Issues**

**Unit 1:** Federal Assistance Overview

**Unit 2:** Overview of Debris Management Issues

**Unit 3:** Debris Staff Organization & Responsibilities

**Unit 4:** Debris Management Plan

**Unit 5:** Temporary Debris Storage Site Evaluation Criteria

**Unit 6:** Debris Estimating Techniques

**Unit 7:** Contracting Procedures

**Unit 8:** Debris Management Plan Group Activity

### **MODULE II—Removal and Disposal Issues**

**Unit 9:** Debris Removal Operations

**Unit 10:** Operating Temporary Debris Storage Sites

**Unit 11:** Volume Reduction Methods

**This course provides an overview of debris issues and recommended actions:**
